

Senior Syndicate Newsletter Term 2 2020

Dear Parents and Caregivers,

What a different start to this term we have had. Firstly we would like to acknowledge that this has been a massive challenge for some people. Thank you to all the parents for the support we have had while we have been working online with your child. The online meetings have been both amusing and frustrating. Most of all, we look forward to being in class soon and continuing the term together. Any updates and information can be found on the school website www.greenhitheschool.nz.

Please remember that while at Covid Level 3 the school is only open for those children whose parents cannot work from home and the children of essential workers. If your work circumstances change and your child needs to attend school, please give us **48 hours notice**. This allows the school to ensure we have sufficient staffing and our health and safety procedures can be implemented to keep your child, the teachers and the other children safe.

At Home Learning

Your teacher will be sending out a revised Learning Grid on Monday 4th of May, along with a detailed email about how to use it. The grids have been updated with more specific learning activities to achieve each day. The activities cover the curriculum. The most important thing to us is that our school whanau is happy, getting exercise and fresh air and maintaining some basic learning, by at least reading every day and choosing some activities as well as completing assignments from Mathletics. However there are plenty of fun and engaging activities on the Learning Grid this coming week.

We hope that you are all well and still managing to enjoy this time with your family. We look forward to seeing you all back at school very soon.
